

灵活性 Flexibility

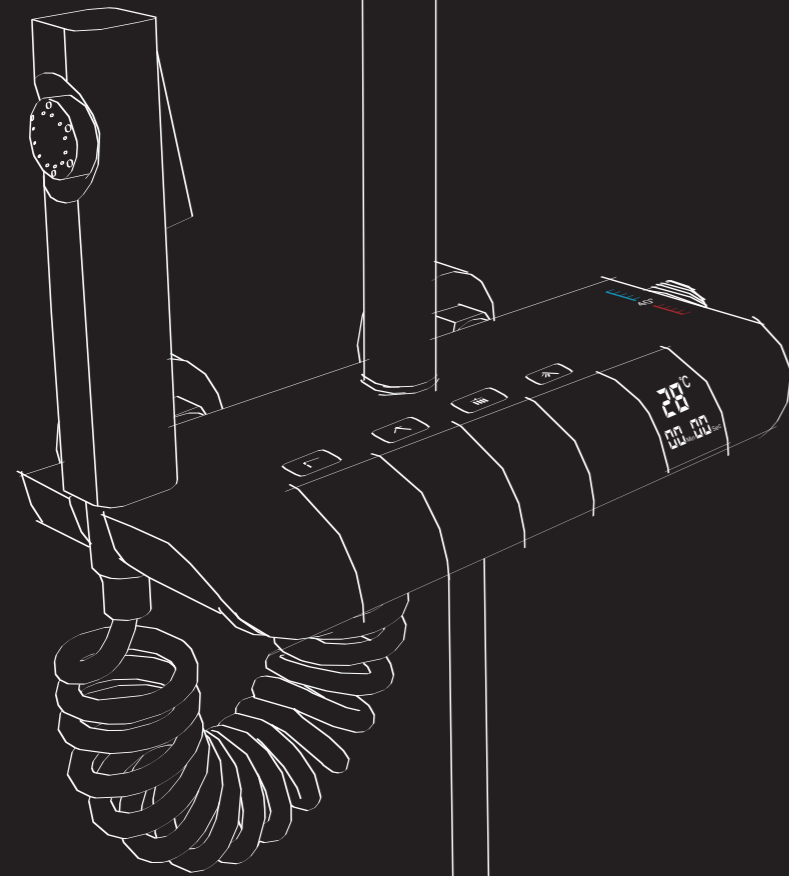

设计以适应不同环境、不同场景，以供具体选择。
为您提供更符合实际情况的解决方案。

Designed to adapt to different environments
and scenarios for specific selection.
To provide you with more practical solutions.

创新性 Innovation

将环保节能理念和技术融入到研发和设计中。
实现工艺与探索产品的实际应用。

Integrate the concept and technology
of environmental protection and energy
conservation into the R&D and design. Realize
the practical application of technology and
exploration products.

我们视设计为其品牌哲学中最重要的部分。我们认为，设计是对心灵的释放并将富含价值的灵感凝聚于事物中的过程，并以符合美学的形式呈现于世。从每件人性化的设计作品中，我们能深深感受到内里令人震撼与极具个性的灵魂。我们乐于将这种感受带给用户，并以此为目标。

我们，用心创作 ...

我们的作品总是要与人们日常生活息息相关。“我们没必要创造或是给予人们与他们生活毫无关系的东西，我坚持只为原本有意义和人们真正关心的事物而创作。”

(设计师 Marcel Wander 语)。我们的设计师于生活中吸取经验，从对生活细节的感受中得到灵感，并在创新的角度上思考，作品由此诞生。

我们关注对生活深层次的理解，致力于开创一种更精致且富有内涵的“随手可得”生活方式。

我们，为生活创作 ...

We consider design to be the most important part of its brand philosophy.

We believe that design is the process of releasing the soul and condensing valuable inspiration into things, presenting it in an aesthetically pleasing form.

From every humanized design work, we can deeply feel the soul that is shocking and highly personalized inside. We are happy to bring this feeling to our users and aim for it.

We create with dedication...

Our works are always closely related to people's daily lives. "We don't need to create or give people things that have nothing to do with their lives. I insist on creating only for things that are originally meaningful and that people truly care about."

(In the language of designer Marcel Wander). Our designers draw inspiration from life's experiences, feel the details of life, and think from an innovative perspective, giving birth to their works.

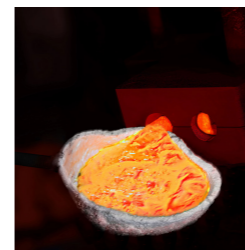

We focus on a deeper understanding of life and are committed to creating a more refined and meaningful "readily available" lifestyle.

We create for life...
